

## Loss Control vs. OSHA-Do You Know the Difference?

At Falls Lake Insurance, the Loss Control team welcomes the opportunity to partner with clients to share, shape, and implement strategies to reduce workplace accidents.

Unlike OSHA, we are not solely focused on compliance. While OSHA has a system that financially reprimands, we emphasize collaboration to create safety programs that work for you.

Our department is comprised of a diverse, well-rounded, personable group of professionals with decades of safety experience.

Our primary goal is to support our clients, prepare them for any and all safety inspections that may come, and prevent workplace accidents.

As soon as you hear that an OSHA inspection will take place, contact your [Loss Control Representative](#) and work together to stay prepared.
