We look forward to working with you.

One of the most essential parts of a Workers' Compensation claim is early reporting. This facilitates timely investigation, payment of benefits, and appropriate care for your injured worker.

A First Report of Injury (FROI) should be filed immediately after the employee is injured and/or when the Supervisor is notified. To file the FROI, Employers should complete the First Report of Injury form and contact Falls Lake Insurance Company.

Please refer to the FROI attachment below, where you will find instructions for filing a FROI. If you report the claim via telephone, you do not need to fill out this form.
